Key Haircare Trends

1. **Nearly 50% of consumers surveyed by the NPD Group are willing to spend more on targeted haircare.**
2. **Premiumization and skinification of scalp** – Consumers are:
 - Investing more in at-home beauty routines
 - Incorporating a multi-step haircare routine, hence spending more time and buying more products
 - Buying more specialized products for their hair types and textures such as wavy, curly, and coiled hair
3. **Consumers are increasingly focusing on scalp-health.** We've seen a surge in demand for: scalp treatments, hair growth serums and bond builders. Other top products are formulated to nourish and prevent or repair hair damage like leave-in conditioners.
4. **Top haircare packaging trends** include innovative applicators and pumps and sustainable materials.
