

Introducing our In-Mold Label Tubes!

Injection molded tubes with
in-mold label capability

Manufactured by
ICONS'
onshore USA tube
manufacturing
facility
ICONS|America

Achieve 360° artwork that
seamlessly extends over
the shoulder (no halo) and
a barely visible join line

Available in matte, glossy
and metallic effects +
hot and cold stamping

Available in D35,
D40, D50 sizes,
round & oval
shapes with
flip-top snap-on or
flip-top screw-on
caps

Mono-material PP
tube, with option to use
PP PCR for
added sustainability

ICONS | ICS

Where innovation and sustainability meets aesthetics

Introducing our revolutionary In-Mold Label (IML) tubes that redefine traditional tube artwork capabilities.

We use cutting edge technology to provide sustainable, mono-material PP injection molded tubes with stunning 360° in-mold labelling.

Achieve tube decoration with virtually no limits.
