cutting

Washing, separation
and drying

Extrusion

Green Ocean
Plastic

From Ocean Waste to Products we use Everyday.

To help combat plastic pollution and ensure cleaner environments and oceans, ICS introduces sustainable packaging made with Ocean Plastic.

- Our HDPE Ocean Plastic is made from sustainably sourced, recycled HDPE, such as fishing nets, ropes and trawls pulled directly from the ocean and maritime industry.
- Recommended for multi-layer tubes using Ocean Plastic HDPE outer layer and Virgin PE inner layer.
- Maximum recommended percentage of Ocean Plastic HDPE outer layer is 50%.
- Available in 13mmD – 50mmD tubes.
- Our Ocean Plastic is suitable for a variety of printing options, such as offset print, silkscreen and hot stamp, as well as finish options, such as glossy, matte and soft touch.
- REACH and Prop 65 compliant.
- *Note: Using Ocean Plastic can yield visual variations, such as pitting, black dots, color variation.*
